

DHULLA PAVANI

B.Tech – Artificial Intelligence & Machine Learning | 3rd Year
Sri Indu College of Engineering and Technology | Hyderabad, Telangana, India
Phone: 8309867533 | Email: pavanidulla090@gmail.com
LinkedIn: linkedin.com/in/dhulla-pavani-8a7316340 | GitHub: github.com/dhullapavani

PROFESSIONAL SUMMARY

Third-year B.Tech student specializing in **Artificial Intelligence and Machine Learning**, with hands-on experience in **Data Analytics, Python, Full-Stack Development, Generative AI, databases, and web technologies**. Experienced in developing practical projects across AI, legal technology, transportation, web applications, and data collection. Strong interest in **Data Analyst, AI/ML, and Full-Stack Development** roles, with practical exposure through hackathons, technical programs, workshops, and outreach initiatives.

TECHNICAL SKILLS

Programming: Python, C, JavaScript, TypeScript

Data & Analytics: Python, Pandas, NumPy, Data Analysis, Data Visualization, SQL

Web Technologies: HTML, CSS, React, Next.js, Node.js, Tailwind CSS

AI/ML: Artificial Intelligence, Machine Learning, Generative AI, OpenCV

Databases: MySQL, PostgreSQL, Prisma

Tools: Git, GitHub, VS Code

Other: REST APIs, Web Scraping, Prompt Engineering

PROJECTS

AI CareerPilot — AI-Powered Career Guidance Platform

- Developed an AI-powered career platform for resume analysis and personalized career guidance.
- Implemented **AI Resume Analysis, Job Matching, Skill Gap Analysis, Resume Builder, Cover Letter Generation, Career Roadmap, and Interview Preparation**.
- Integrated AI APIs and database functionality for managing career-related information.
- **Tech:** Next.js, TypeScript, Tailwind CSS, Prisma, PostgreSQL, Generative AI

Nyaya Trace — AI-Based Legal Research Platform

- Developed an AI-powered legal technology platform focused on making legal information and case analysis more accessible.
- Worked with **AI-driven workflows, RAG/LLM concepts, legal research, and database integration**.
- Presented the project in an **Agentic AI hackathon** environment.
- **GitHub:** github.com/dhullapavani/nyaya-trace-vercel

SmartCommute-AI — Smart Transportation & Crowd Prediction

- Developing an intelligent transportation platform for **bus, train, and metro commuters**.
- Designed route planning and transportation-mode selection for finding suitable travel routes.
- Developed a machine-learning model for **crowd prediction** using historical transportation data.
- **Tech:** Next.js, TypeScript, Python, Scikit-learn, Prisma, PostgreSQL

Delicious Bites — Food / Restaurant Web Application

- Developed a responsive web application focused on food and restaurant-related content.
- Implemented a modern web interface with structured pages and reusable components.
- **GitHub:** github.com/dhullapavani/delicious-bites

Book Market Intelligence Web Scraper

- Developed a Python web scraper using **Requests, BeautifulSoup, and Pandas**.
- Scraped **100 books** and extracted title, price, rating, availability, category, product URL, and scraping timestamp.
- Performed data cleaning and generated structured datasets for analysis.
- **GitHub:** github.com/dhullapavani/CodeAlpha-Task1-WebScraping

Hospital Management / Healthcare Web Project

- Developed a web-based project focused on healthcare and hospital-related functionality.

- Applied frontend development concepts to create a structured and user-friendly interface.

• **GitHub:** github.com/dhullapavani/hospital.git

Portfolio Website

- Designed and developed a personal portfolio website to showcase technical skills, projects, achievements, and professional profile.

• **GitHub:** github.com/dhullapavani/portfolio-website

HACKATHONS & TECHNICAL EXPERIENCE

Smart India Hackathon (SIH) — Participant

- Participated in SIH and collaborated on developing a technology-based solution for a real-world problem.

MSME Hackathon — Participant

- Participated in an innovation-focused hackathon and worked collaboratively on developing a technology-based solution.

Agentic AI / Vibe Coding Hackathon — Participant

- Developed and presented **Nyaya Trace**, an AI-powered legal technology solution.
- Worked with AI workflows, RAG/LLM concepts, system architecture, and product presentation.

CodeAlpha — Web Scraping Project

- Completed a practical web-scraping project involving automated data collection, cleaning, and structured dataset generation.

CERTIFICATIONS & PROGRAMS

- **AI in Azure Program — Microsoft AI Innovators Hub**
- **Microsoft Copilot Event**
- **ICT Academy Learnathon**
- **MSME Hackathon — Participant**
- Technical and AI-focused workshops and learning programs

ACHIEVEMENTS & ACTIVITIES

- Participated in **Smart India Hackathon (SIH)**.
- Participated in the **MSME Hackathon** and worked on an innovation-focused technology solution.
- Participated in **Outreach Programs** focused on technology, AI, AI in Cyber Security, and Design Thinking.
- Participated in technical workshops and professional development programs.
- Participated in multiple **AI, technology, and innovation-focused events**.
- Developed multiple independent **AI/ML, Data Analytics, and Full-Stack projects**.
- Actively learning and building projects in **Artificial Intelligence, Generative AI, Data Analytics, and Web Development**.

EDUCATION

Bachelor of Technology (B.Tech) — Artificial Intelligence & Machine Learning

Sri Indu College of Engineering and Technology

CGPA: 8.0 | Expected Graduation: 2028

AREAS OF INTEREST

Data Analytics | Artificial Intelligence & Machine Learning | Generative AI | Full-Stack Development | Web Development | AI Product Development
